The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits available under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except in the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the use of its investment properties and no contractual obligations to construct or develop properties or for repairs, maintenance and enhancements.

In compliance with IND AS-12, "Income Taxes" prescribed under the Companies (Indian Accounting Standards) Rules, 2015, the deferred tax asset arising on account of brought forward losses and unabsorbed depreciation has not been recognised in view of consideration of prudence and uncertainty regarding the realisation of the same in the foreseeable future.

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the

of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Note
26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are companies there is no or minimal risk of default by customers as all are to be recovered from within group.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of trade payables on a regular basis with the help of the group treasury team. Further the company may enter into derivatives if the exposure arising out of these risks exceeds significantly.

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a strument will fluctuate because of changes in market es. The Company's exposure to the risk of changes in rest rates is not managed by taking interest free loan.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Note
27 Other Disclosures

a) Basis of Preparation of Financial Statements

The Company has incurred a net loss of Rs. 4,59,99,136 for the year ended 2019-20 and, as of that date Company's current liabilities exceeded its total assets by Rs.63,04,41,459

. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

However the Company does not have any intention to suspend the operational activities. The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2020, which exceeds the accumulated losses by approx Rs.600 crores. The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

b) Disclosure of Compliance with IND AS

The Company has adopted Indian Accounting Standards ("Ind-AS") and these financial statements have been prepared in accordance with the principles of recognition and measurement of Ind AS, prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder. Accordingly, the annual financial statements of the previous periods are restated as per Ind AS.

Disclosure in board of directors report explanatory [Text Block]

Directors' Report

Dear Shareowners,

Your Directors present the 19th Annual Report and the audited accounts of the Company for the financial year ended March 31, 2021.

Financial performance and Business Operations

During the year under review, your Company has not earned any income. The Company has incurred loss of Rs. 553.73 lacs for the year as compared to loss of Rs. 459.99 lacs in the previous year.

Dividend

During the year under review, the Board of Directors has not recommended any dividend on the equity shares of the Company.

Reserve

In view of the loss, no amount has been carried to any reserve.

Subsidiary / Holding Company

There was no subsidiary company as on March 31, 2021. Reliance Communications Limited (RCOM) remains the holding company.

RCOM is under Corporate Insolvency Resolution Process pursuant to the provisions of the Insolvency and Bankruptcy Code, 2016 and its affairs, business and assets are being managed by, and the powers of the board of directors of RCOM are vested in, the Resolution Professional appointed by Hon'ble National Company Law Tribunal, Mumbai Bench, Mumbai.

Deposits

The Company has not accepted deposit from the public falling within the ambit of Section 73 of the Companies Act, 2013 (Act) and the Companies (Acceptance of Deposits) Rules, 2014.

Particulars of Loans, Guarantees or Investments

The Company has not made any loans, provided any guarantee or made any investments within the preview of Section 186 of the Act.

Directors

Shri Rakesh Gupta (DIN: 00130829), Director is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment, offers herself for re-appointment at the ensuing Annual General Meeting.

Shri Rakesh Gupta, Shri Gourav Ranawat Singh and Shri Vinay Soni are the directors of the Company.

Key Managerial Personnel

As per Section 203 of the Act, the Company is not required to appoint Key Managerial Personnel of the Company.

Policy on Directors, Key Managerial Personnel and other Senior Employees Appointment and Remuneration

The Nomination and Remuneration Committee of the Board has devised a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their Remuneration. The Committee has formulated the criteria for determining the qualifications, positive attributes and independence of a Director. Further, the Committee has also devised a policy relating to remuneration for Wholtime Directors, Key Managerial Personnel and senior management employees of the Company. The policy on the above is attached as Annexure - A.

Evaluation of Directors, Board and Committees

As per the requirement of the Act, policy for performance evaluation of the individual directors, Board and its Committee, which includes criteria for performance evaluation not applicable to the Company.

Directors' Responsibility Statement

Pursuant to the requirements under Section 134(3)(c) of the Companies Act, 2013 with respect to Directors' Responsibility Statement, it is hereby confirmed that:

in the preparation of the annual financial statements for financial year ended March 31, 2021, the applicable Accounting Standards had been followed along with proper explanation relating to material departures, if any;

the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and give a true and fair view of the state of affairs of the Company as at March 31, 2021 and of the loss of the Company for the year ended March 31, 2021;

the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

the Directors had caused the annual financial statements for the financial year ended March 31, 2021 to be prepared by the Company's auditors, who are members of the Institute of Cost Accountants of India, Chartered Accountants of India, Company Secretaries of India or such other body as recognised by the Central Government in this behalf;

the Directors had laid down internal financial controls to be followed by the Company and were satisfied that such financial controls are adequate and are operating effectively, and

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

the Directors have devised proper systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

Related Party Transactions

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors or other designated persons, which may have a potential conflict with the interest of the Company at large.

None of the Directors has any pecuniary relationships or transactions vis-à-vis the Company.

Material Changes and Commitments if any affecting the financial position of the Company

There was no material change and commitment affecting the financial position of the Company.

Meetings of the Board

During the period, four Board Meetings were held on July 30, 2020, October 16, 2020, November 27, 2020 and February 12, 2021. The maximum time gap between any two meetings was 77 days and the minimum gap was 41 days. The meetings are normally held at Mumbai.

Risk Management

The Company has a business risk management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimise adverse impact on the business objective and enhance company's competitive advantage. The business risk framework defines the risk management approach across the Company at various levels including documentation and reporting. The framework has different risk models, which helps in identifying risk trend, exposure and potential impact analysis at a Company level.

Auditors and Auditors' Report

M/s. Ajay Agarwal and Co, Chartered Accountants were appointed as Statutory Auditors at the 17th Annual General Meeting of the Company held on September 28, 2019 for a period of 5 years to hold office from financial year 2019-20 to the Financial year 2023-24.

The Company has received a confirmation from the said Auditors that they are not disqualified to act as the Auditors and are eligible to hold the office as Auditors of the Company.

The observations and comments given by the Auditors in their report read together with notes on financial statements are self-explanatory and hence do not call for any further comments under Section 134 of the Companies Act, 2013.

Financial Statements - Application of Indian Accounting Standards (Ind AS) Rules, 2015.

Ministry of Corporate Affairs (MCA) vide its Notification No. G.S.R. 111(E) dated February 16, 2015, has made the application of the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS Rules) effective from April 1, 2015.

The audited financial statement drawn up for the financial year ended March 31, 2021, in accordance with the requirements of the above said Rules.

Audit Committee

Pursuant to the provisions of Rule 6 of Companies (Meetings of Board and its Powers) read with Rule 4(2) of Companies (Appointment and Qualification of Directors) Amendment Rules, 2017 inserted by the Companies (Appointment and Qualification of Directors) Amendment Rules, 2017 with effect from July 13, 2017, the Company being wholly own subsidiary of Reliance Communications Limited, listed company is exempted to constitute Audit Committee of the Board.

Corporate Social Responsibility

The Company is not falling under the purview of Section 135 of the Act and hence disclosures with respect to CSR activities are not applicable to the Company.

Extract of Annual Return

The details forming part of the extract of the Annual Return in form MGT 9 is annexed herewith as "Annexure B".

Annexure - A

Policy on appointment and remuneration of Directors, Key Managerial Personnel and Senior Management employees.

1. Introduction

1.1 Campion Properties Limited considers human resources as its invaluable assets. The policy aims to harmonize the aspirations of the directors/ employees with the goals of the Company.

1.2 Human capital is a strategic source of value creation. As part of progressive HR Philosophy, it is necessary to have in place a comprehensive Compensation Policy, which is in line with the industry trend and is employee friendly.

2. Objectives:

2.1 Ensuring that the quantum and composition of remuneration is reasonable and sufficient to attract, retain and motivate employees, to run the Company successfully.

2.2 Ensuring that relationship of remuneration to performance is clear and meets the performance benchmarks.

2.3 Ensure that annual compensation review considers industry/ business outlook and strategies adopted by industry peers, differentiates employees based on their performance/skill sets and also protects employees, particularly those in junior cadre, against inflationary pressures;

2.4 Retention of high performers at all levels and those playing critical roles.

3. Scope

The Board has constituted the "Nomination and Remuneration Committee" in line with the requirements under the provisions of the Companies Act, 2013. This Policy sets out the broad guiding principles for the Committee for recommending to the Board for the appointment and remuneration of the directors, key managerial personnel, Senior managerial personnel of the Company.

4. Definitions

4.1. "Director" means a director appointed to the Board of the Company.

4.2. "Key Managerial Personnel" means

the Chief Executive Officer or the Managing Director or the Manager;

the Company Secretary;

the Whole-time Director;

the Chief Financial Officer; and

such other officer as may be prescribed under the Companies Act, 2013.

4.3. "Senior Management" means personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, if any.

5. Policy:

5.1. Appointment of Directors/ Key Managerial / Senior Management personnel

The Nomination and Remuneration Committee, inter alia, considers qualifications, positive attributes, areas of expertise and number of Directorships and Memberships held in various committees of other companies by such persons for Selection. The Board considers the recommendation of the Committee's and takes appropriate decision. The Company also considers the requirement of skills and effectiveness of persons contributing to the Company's business and policy decisions of the Company.

5.2. Remuneration to Directors/ Key Managerial Personnel

5.2.1 The remuneration of the Directors/ Managing Directors/ Whole time Directors and Manager etc. will be governed as per provisions contained in the Companies Act, 2013 and rules made therein from time to time.

Directors shall be entitled to sitting fees for attending the meetings of the Board and the Committees thereof as per the schedule of Directors from time to time. The Non-Executive Directors shall also be entitled to profit related Commission, if any, in addition to the sitting fees.

The remuneration of the Directors/ Managing Directors/ Whole time Directors and Manager etc. shall be as per the recommendation of the Nomination and Remuneration Committee. The remuneration of the Key Managerial Personnel/ Senior Management Personnel of the Company shall be as per the recommendation of the Nomination and Remuneration Committee.

The remuneration structure shall include the following components:

- (ii) Perquisites and Allowances
- (iii) Stock Options, if any.

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

(iv) Commission (Applicable in case of Executive Directors/ Directors)

(v) Retiral benefits

(vi) Annual Performance Linked Incentives

5.2.5 The Annual Plan, Objectives, financial results of the Company shall be reviewed by the Nomination and Remuneration Committee and Performance Incentives, increment, revision in remuneration etc. will be proposed based on the achievements.

5.3 Remuneration to other employees

Employees shall be assigned grades/bands according to their qualifications and work experience, competencies, as well as their roles and responsibilities in the organization. Individual remuneration shall be determined within the appropriate grade/bands and shall be based on various factors such as job profile, skill sets, seniority, experience, performance and prevailing remuneration levels for equivalent jobs.

6. Retention Features as part of Compensation Package

Based on the organizational need for retaining performing employees and those in critical roles, certain retention features may be rolled out as part of the overall compensation package. These may take form of Retention Bonuses (RBs); Special Monetary Programs (SMPs), Long-term Incentives (LTIs) etc.

7. Modification and Amendment:

The policy is subject to modification, amendment and alterations by the management at any time without assigning any reasons.

Annexure - B

FORM NO. MGT 9

forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we report that in our opinion the said order is applicable to the company, hence comments on the matters specified in paragraphs 3 and 4 of the said order are required and are given in Annexure-1

2. As required by section 143(3) of the Act, we further report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
- (c) The standalone Balance Sheet, Statement of Profit & Loss and cash flow statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.
- (e) The Going Concern matter described in basis for qualified opinion selection related to Going Concern Paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
- (f) On the basis of written representations received from the directors as on March 31, 2021 and taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- (g) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure-II.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us:-
- (i) The Company does not have any pending litigations which would impact its financial position.
- (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure-I to the Auditor's Report

The Annexure referred to in paragraph 1 of our report of even date to the members of Campion Properties Limited on the accounts of the company for the year ended 31st March, 2021.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

1. In respect of Fixed Assets :

- (a) The company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;
- (b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals and no material discrepancies were noticed on such verification.
- (c) Title deed of immovable property is held by the Company as Fixed Assets.

2. In respect of its inventories:

There is no inventory maintained by entity.

- (a) not granted any loan secured or unsecured to companies, firms or other parties covered by clause (76) of Section 2 of the Companies Act, 2013.

(b) The company has not granted any loans, investments and guarantees, therefore, Clause 4 of the Companies (Auditor's Report) Order, 2016 is not applicable to the company.

(c) The company has not accepted deposits during the year.

(d) The company is not required to maintain the cost records which has been specified by the Companies Act, 2013.

3. In respect of statutory dues:

- (a) The company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, -value added tax, and any other statutory dues with the appropriate authorities.

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT of

(b) The company does not have any dues of income tax or sales-tax or service tax or duty of customs or duty of excise or value added tax on account of any dispute.

8. The company does not have any loans or borrowings from financial institution or bank or debenture holders, therefore, the clause 8 of the Companies (Auditor's Report) Order 2016 is not applicable to the company.

9. No money has been raised by way of public issue or follow-on offer (including debt instruments) and term loans were applied for the purposes for which those are raised.

10. No fraud has been made by the company nor has any fraud on the Company by its officers or employees been noticed or reported during the year.

11. The company has not paid any managerial remuneration to directors during the year hence clause 11 of the Companies (Auditor's Report) Order 2016 is not applicable to the company.

12. In our opinion, the company is not Nidhi Company. Therefore, the clause 12 of the Companies (Auditor's Report) Order 2016 is not applicable to the company.

13. All transactions with the related parties are in compliance with Section 188 and 177 of Companies Act, 2013 and have been disclosed in the Financial Statements etc as required by the accounting standards and Companies Act, 2013.

14. The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

15. The company has not entered into any non-cash transactions with directors or persons connected with him.

16. The company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure -II to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Campion Properties Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with the authorized management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Due to inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper application of controls, material misstatements due to error or fraud may occur. Internal financial controls over financial reporting to future periods are subject to change because of changes in conditions, or that may become inadequate because of changes in conditions, or that may become obsolete.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over

Disclosure of significant accounting policies [Text Block]

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Disclosure of significant accounting policies [Text Block]

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the time value of money is not material, provisions are determined by the undiscounted cash flows. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Statement of Ind AS compliance [Text Block]

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the fair value principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure the fair value are discussed below.

The classification and grouping of individual items in the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equities are based on the principle of substance over form.

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are analysed.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the time value of money is not material, provisions are determined by discounting the expected future cash flows at the current market assessments of the time value of money. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense in the year in which they are incurred.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

(iv) Fair Value

(Amount in Rs.'000)

Particulars	As at March 31, 2021	As at March 31, 2020
Investment Property	66,56,000	66,56,000
	66,56,000	66,56,000
(v) Estimation of Fair Value		

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Textual information (13)

Disclosure of income tax [Text Block]

Note 24 Deferred Tax (Assets)/ Liabilities

In compliance with IND AS-12, "Income Taxes" prescribed under the Companies (Indian Accounting Standards) Rules, 2015, the deferred tax asset arising on account of brought forward losses and unabsorbed depreciation has not been recognised in view of consideration of prudence and uncertainty regarding the realisation of the same in the foreseeable future.

Note 25 Financial Instruments - Accounting Classification and Fair Value Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables , other current liabilities , short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 Other techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

(Amount in Rs.'000)

Financial Assets Carrying Amount FVPL FVOCI Amortised cost

Trade Receivables and Cash & Cash Equivalent As at March 31, 2021 2,220 - - 2,220

Financial liabilities Carrying Amount FVPL FVOCI Amortised cost

Borrowings and Trade payables As at Dec 31, 2020 15,44,351 - - 15,44,351

Borrowings and Trade payables As at March 31, 2021 15,44,351 - - 15,44,351

Borrowings and Trade payables As at March 31, 2020 15,42,814 - - 15,42,814

Note 26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The principal financial liabilities comprise trade payables and other liabilities. The main purpose of these instruments is to raise finance for operations. It has various financial assets such as cash and cash equivalents, trade receivables, cash which arise directly from its operation.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are related companies there is no or minimal risk of default by customers as the rental are to be recovered from within group.

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of these risks on a regular basis with the help of the group treasury team. Further the company may enter into derivatives to hedge the exposure arising out of these risks exceeds significantly.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

Note 27	Other Disclosures
a)	Basis of Preparation of Financial Statements
	The Company has incurred a net loss of Rs.5,53,73,428 for the Period 1st April, 2020 to March 31,2021 and, as of that date Company's current liabilities exceeded its total assets by Rs. 68,58,18,978 The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

	The Company does not have any intention to suspend the operation of the leased hold land with build up area of approximately 15000 square feet for parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent

valuer. Management estimates, current market of the property in the same range as on 31st March 2021, which exceeds the accumulated losses by approx Rs.600 crores. The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

b) Disclosure of Compliance with IND AS

The Company has adopted Indian Accounting Standards ("Ind-AS") and these financial statements have been prepared in accordance with the principles of recognition and measurement of Ind AS, prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder. Accordingly, the annual financial statements of the previous periods are restated as per Ind AS.

c) In the opinion of the management, the current assets and loans & advances are at least equal to the value stated in the Balance Sheet, if realized in the ordinary course of business.

d) Balances with Trade receivables / trade payables are subject to confirmation/ reconciliation.

Note 28 Events occurring after the reporting period

(a) Other events

There are no events occurring after the reporting period which have material impact on the financials.

f financial statements

al statements were approved by the Board of Directors on 24th

Dividend

During the year under review, the Board of Directors has not recommended any dividend on the equity shares of the Company.

Reserve

In view of the loss, no amount has been carried to any reserve.

Subsidiary / Holding Company

There was no subsidiary company as on March 31, 2022. Reliance Communications Limited (RCOM) remains the holding company.

RCOM is under Corporate Insolvency Resolution Process pursuant to the provisions of the Insolvency and Bankruptcy Code, 2016 and its affairs, business and assets are being managed by, and the powers of the board of directors of RCOM are vested in, the Resolution Professional appointed by Hon'ble National Company Law Tribunal, Mumbai Bench, Mumbai.

Deposits

The Company has not accepted deposit from the public falling within the ambit of Section 73 of the Companies Act, 2013 (Act) and the Companies (Acceptance of Deposits) Rules, 2014.

Particulars of Loans, Guarantees or Investments

The Company has not made any loans, provided any guarantee or made any investments within the preview of Section 186 of the Act .

Directors

Shri Vinay Soni (DIN: 08567944), Director is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment, offers herself for re-appointment at the ensuing Annual General Meeting.

During the year under review, Shri Gourav Singh Ranawat has resigned as Director of the Company with effect from February 10, 2022. Further, Ms. Trusha Shah was appointed as Non-Executive – Independent Additional Director on the Board of Director of the Company with effect from February 10, 2022.

Key Managerial Personnel

As per Section 203 of the Act, the Company is not required to appoint Key Managerial Personnel of the Company.

Policy on Directors, Key Managerial Personnel and other Senior Employees Appointment and Remuneration

The Nomination and Remuneration Committee of the Board has devised a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their Remuneration. The Committee has formulated the criteria for determining the qualifications, positive attributes and independence of a Director.

Evaluation of Directors, Board and Committees

As per the requirement of the Act, policy for performance evaluation of the individual directors, Board and its Committee, which includes criteria for performance evaluation not applicable to the Company.

Directors' Responsibility Statement

Pursuant to the requirements under Section 134(3)(c) of the Companies Act, 2013 with respect to Directors' Responsibility Statement, it is hereby confirmed that:

in the preparation of the annual financial statements for financial year ended March 31, 2022, the applicable Accounting Standards had been followed along with proper explanation relating to material departures, if any;

the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and give a true and fair view of the state of affairs of the Company as at March 31, 2022 and of the loss of the Company for the year ended March 31, 2022;

the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

the Directors had caused the annual financial statements for the financial year ended March 31, 2022 to be prepared and audited in accordance with the provisions of the Companies Act, 2013 and the Accounting Standards applicable for that period;

the Directors had laid down internal financial controls to be followed by the Company and were satisfied that such financial controls are adequate and are operating effectively, and

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

the Directors have devised proper systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

Related Party Transactions

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors or other designated persons, which may have a potential conflict with the interest of the Company at large.

None of the Directors has any pecuniary relationships or transactions vis-à-vis the Company.

Material Changes and Commitments if any affecting the financial position of the Company

There was no material change and commitment affecting the financial position of the Company.

Meetings of the Board

During the period, four Board Meetings were held on June 24, 2021, August 12, 2021, November 26, 2021 and February 08, 2022. The maximum time gap between any two meetings was 105 days and the minimum gap was 41 days. The meetings are normally held at Mumbai.

Risk Management

The Company has a business risk management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimise adverse impact on the business objective and enhance company's competitive advantage. The business risk framework defines the risk management approach across the Company at various levels including documentation and reporting. The framework has different risk

Models, which helps in identifying risk trend, exposure and potential impact analysis at a Company level.

Auditors and Auditors' Report

M/s. Ajay Agarwal and Co, Chartered Accountants were appointed as Statutory Auditors at the 17th Annual General Meeting of the Company held on September 28, 2019 for a period of 5 years to hold office from financial year 2019-20 to the Financial year 2023-24.

The Company has received a confirmation from the said Auditors that they are not disqualified to act as the Auditors and are eligible to hold the office as Auditors of the Company.

The observations and comments given by the Auditors in their report read together with notes on financial statements are self-explanatory and hence do not call for any further comments under Section 134 of the Companies Act, 2013.

Financial Statements - Application of Indian Accounting Standards (Ind AS) Rules, 2015.

Ministry of Corporate Affairs (MCA) vide its Notification No. G.S.R. 111(E) dated February 16, 2015, has made the application of the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS Rules) effective from April 1, 2015.

The audited financial statement drawn up for the financial year ended March 31, 2022, in accordance with the requirements of the above said Rules.

INDEPENDENT AUDITOR'S REPORT

To the Members of Campion Properties Limited
 Report on the Standalone Financial Statements
 Qualified Opinion

We have audited the standalone financial statements of Campion Properties Limited ("the Company"), which comprise the balance sheet as at 31 st March 2022, and the statement of Profit and loss, statement of cash flows, and Statement of change in Equity for the year ended, and notes to the financial statement, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of matter described on the basis for Qualified Opinion Paragraph the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its loss, Changes in equity and its cash flow for the year ended on that date.

Basis for Qualified Opinion

We draw attention to Note No. 27(a) in the financial statement, which indicate that the company incurred a net loss of Rs.5,60,78,913 for the year ended 2021-22 and, as of that date Company's current liabilities exceeded its total assets by Rs. 74,18,97,891. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-levelled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2022, which exceeds the accumulated losses by approx. Rs. 600 crores. The company does not have any external borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis. However, in view of the above uncertainties, we are unable to comment on the ability of the company to continue as a going concern and the consequential to accompanying financial statements, if any, that might have been necessarily had the financial statements prepared under liquidation basis.

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those Board of director are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence

ons of users taken on the basis of these financial statements.

n accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit
ve to those risks, and obtain audit evidence that is sufficient and appro

omissions, misrepresentations, or the override of internal control.

inding of internal control relevant to the audit in order to design audit
circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether and
company has adequate internal financial controls system in place and the operating effectiveness of such controls.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we report that in our opinion the said order is applicable to the company, hence comments on the matters specified in paragraphs 3 and 4 of the said order are required and are given in Annexure-1

2. As required by section 143(3) of the Act, we further report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

(c) The standalone Balance Sheet, Statement of Profit & Loss and cash flow statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.

(e) The Going Concern matter described in basis for Qualified opinion selection related to Going Concern Paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

(f) On the basis of written representations received from the directors as on March 31, 2022 and taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure-II.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us:-

(i) The Company does not have any pending litigations which would impact its financial position.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The company has not declared any dividend during the year under reference.

Auditor's Report

As per paragraph 1 of our report of even date to the members of Company, the report is dated 31st March, 2022.

We have checked as we considered appropriate and according to the information and explanations given to us that:

1. In respect of Fixed Assets :

(a) The company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

(b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals and no material discrepancies were noticed on such verification.

(c) Title deed of immovable property is held by the Company as Fixed Assets.

(d) The company has not revalued its Property, plant and equipment during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rule made hereunder.

2. In respect of its inventories:

There is no inventory maintained by entity.

3. According to the information and explanations given to us and on the basis of our examination of the books of account, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties listed in the register maintained under Section 189 of the Companies Act, 2013. Consequently, the provisions of clauses iii of the order are not applicable to the Company.

4. In our opinion, the company has not granted any loans, investments and guarantees, therefore, Clause iv of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

5. The company has not accepted deposits during the year.

6. The company is not required to maintain the cost records which has been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.

7. In respect of statutory dues:

(a) The company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, and any other statutory dues with the appropriate authorities.

(b) The company does not have any dues of income tax or sales-tax or service tax or duty of customs or duty of excise or value added tax on account of any dispute.

8. Since no tax assessments during the year, hence no transactions has been surrendered as income during the year in tax assessments. Hence clause viii of the Companies (Auditor's Report) Order 2020 is not applicable.

9. The company does not have any loans or borrowings from financial institution or bank or debenture holders, therefore, the clause ix of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

10. (a) No money has been raised by way of public issue or follow-on offer (including debt instruments) and term loans were applied for the purposes for which those are raised.

(b) The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

11. (a) No fraud has been made by the company nor has any fraud on the Company by its officers or employees been noticed or reported during the year.

(b) No report under subsection (12) of section 143 of the Companies Act has been filed in form ADT-4.

(c) No whistle blowers complaints received during the year.

12. In our opinion, the company is not Nidhi Company. Therefore, the clause xii of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

13. All transactions with the related parties are in compliance with Section 188 and 177 of Companies Act, 2013 and have been disclosed in the Financial Statements etc as required by the accounting standards and Companies Act, 2013.

14. Since the Company does not have any operations and Section 138 of the Companies Act, 2013 is also not applicable, therefore, clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

15. The company has not entered into any non-cash transactions with directors or persons connected with him.

16. The company is not required to be register under section 45-IA of the Reserve Bank of India Act, 1934. Hence clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable.

17. The company has not incurred cash losses in the financial year and in the immediately preceding financial year.

18. There has been no instance of any resignation of the statutory auditors occurred during the year.

19. Material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of 1 year from the balance sheet date.

We draw attention to Note No. 27(a) in the financial statement. The Company is wholly owned subsidiary of Reliance Communications Limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

20. Clause xx of the Companies (Auditor's Report) Order 2020 is not applicable to the company since there is no requirement of CSR Expenditure as per section 135 of the said act.

Auditor's Report

Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013. The Company has established internal financial controls over financial reporting of Campion Properties Limited for the year ended 31st March 2022. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note

TRUE COPY H. Srinivasan

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1 Basis of preparation of Financial Statements :

Statement of Compliance

The financial statements are prepared under historical cost convention generally accepted accounting principles (GAAP) in India and standards specified under Section 133 the Companies Act, 2013 ("Companies (Indian Accounting Standards) Rules 2015, Companies Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a hierarchy based on the inputs used in the valuation technique:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments that are held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the effect of the time value of money is not material, provisions are determined by discounting the expected future cash flows at the current market assessments of the time value of money. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense in the year in which they are incurred.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

2022

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1 Basis of preparation of Financial Statements :

Statement of Compliance

The financial statements are prepared under historical cost convention generally accepted accounting principles (GAAP) in India and standards specified under Section 133 the Companies Act, 2013 ("Companies (Indian Accounting Standards) Rules 2015, Companies Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a fair value hierarchy based on the inputs used in the valuation technique. The hierarchy has three levels: Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments that are held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are analysed.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the time value of money is not material, provisions are determined by discounting the expected future cash flows at the current market assessments of the time value of money. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense in the year in which they are incurred.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

l. Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a fair value hierarchy based on the inputs used in the valuation technique. The hierarchy has three levels: Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years
Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years
Building	60 Years
Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1 Basis of preparation of Financial Statements :

Statement of Compliance

The financial statements are prepared under historical cost convention generally accepted accounting principles (GAAP) in India and standards specified under Section 133 the Companies Act, 2013 ("Companies (Indian Accounting Standards) Rules 2015, Companies Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a fair value hierarchy based on the inputs used in the valuation technique. The hierarchy has three levels: Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years
Building	60 Years
Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense in the period in which the provision is first recognized.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Note
24 Deferred Tax (Assets)/ Liabilities

In compliance with IND AS-12, "Income Taxes" prescribed under the Companies (Indian Accounting Standards) Rules, 2015, the deferred tax asset arising on account of brought forward losses and unabsorbed depreciation has not been recognised in view of consideration of prudence and uncertainty regarding the realisation of the same in the foreseeable future.

Note
26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

any's activities expose it to a financial risks: credit risk, and market risk.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are related companies there is no or minimal risk of default by customers as the rental are to be recovered from within group.

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of these on a regular basis with the group treasury team. Further, the company may enter into derivatives if required arising out of these risks significantly.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

Note
27 Other Disclosures

a) Basis of Preparation of Financial Statements

The Company has incurred a net loss of Rs. 5,60,78,913 for the Period 1st April, 2021 to March 31,2022 and, as of that date Company's current liabilities exceeded its total assets by Rs. 74,18,97,891 . The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going

Investment Property	66,56,000	66,56,000
	66,56,000	66,56,000

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of these on a regular basis with the group treasury team. Further, the company may enter into derivatives if necessary to mitigate the risks arising out of these risks significantly.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

Note
27 Other Disclosures

a) Basis of Preparation of Financial Statements

The Company has incurred a net loss of Rs. 5,60,78,913 for the Period 1st April, 2021 to March 31,2022 and, as of that date Company's current liabilities exceeded its total assets by Rs. 74,18,97,891 . The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going

Particulars	As at March 31, 2022	As at March 31, 2021
Investment Property	66,56,000	66,56,000
	66,56,000	66,56,000

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Disclosure in board of directors report explanatory [Text Block]

Directors' Report

Dear Shareowners,

Your Directors present the 21st Annual Report and the audited accounts of the Company for the financial year ended March 31, 2023.

Financial performance and Business Operations

During the year under review, your Company has not earned any income. The Company has incurred loss of Rs. 445.80 lacs for the year as compared to loss of Rs. 560.79 lacs in the previous year.

Dividend

During the year under review, the Board of Directors has not recommended any dividend on the equity shares of the Company.

Reserve

In view of the loss, no amount has been carried to any reserve.

Subsidiary / Holding Company

There was no subsidiary company as on March 31, 2023. Reliance Communications Limited (RCOM) remains the holding company.

RCOM is under Corporate Insolvency Resolution Process pursuant to the provisions of the Insolvency and Bankruptcy Code, 2016 and its affairs, business and assets are being managed by, and the powers of the board of directors of RCOM are vested in, the Resolution Professional appointed by Hon'ble National Company Law Tribunal, Mumbai Bench, Mumbai.

Deposits

The Company has not accepted deposit from the public falling within the ambit of Section 73 of the Companies Act, 2013 (Act) and the Companies (Acceptance of Deposits) Rules, 2014.

Particulars of Loans, Guarantees or Investments

The Company has not made any loans, provided any guarantee or made any investments within the preview of Section 186 of the Act.

Directors

Ms Trusha Shah (DIN: 08969726), Director is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment, offers herself for re-appointment at the ensuing Annual General Meeting.

During the year under review Ms. Konika Shah (DIN: 09600137) and Ms. Vineeta P Patel (DIN: 07151087) were appointed as Additional Non-Executive – Independent Director on the Board of Director of the Company with effect from December 21, 2022 and February 10, 2023 respectively and the hold office up to the date of ensuring Annual General Meeting. They shall be liable to retire by rotation.

Shri Vinay Soni and Shri Rakesh Gupta has resigned as Director of the Company with effect from December 21, 2022 and February 10, 2023 respectively. The Board placed on records the appreciation and guidance received from Shri Vinay Soni and Shri Rakesh Gupta during his tenure as Directors of the Company,

Except as mentioned above, there was no change in Directors of the Company.

Key Managerial Personnel

As per Section 203 of the Act, the Company is not required to appoint Key Managerial Personnel of the Company.

Policy on Directors, Key Managerial Personnel and other Senior Employees Appointment and Remuneration

The Nomination and Remuneration Committee of the Board has devised a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their Remuneration. The Committee has formulated the criteria for determining the qualifications, positive attributes and independence of a Director.

Evaluation of Directors, Board and Committees

ent of the Act, policy for performance evaluation of the individual directors, Board and its Committee, which includes ince evaluation not applicable to the Company.

bility Statement

irements under Section 134(3)(c) of the Companies Act, 2013 with res at:

the annual financial statements for financial year ended March 31 been followed along with proper explanation relating to material departures, if any;

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

it is

had

the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at March 31, 2023 and of the loss of the Company for the year ended on that date;

the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

the Directors had prepared the annual financial statements for the financial year ended March 31, 2023 on a 'going concern' basis;

the Directors had laid down internal financial controls to be followed by the Company and such financial controls are adequate and are operating effectively, and

the Directors have devised proper systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

Related Party Transactions

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors or other designated persons, which may have a potential conflict with the interest of the Company at large.

None of the Directors has any pecuniary relationships or transactions vis-à-vis the Company.

Material Changes and Commitments if any affecting the financial position of the Company
There was no material change and commitment affecting the financial position of the Company.

Meetings of the Board

During the period, Six Board Meetings were held on April 04, 2022, May 25, 2022, August 10, 2022, November 10, 2022, November 23, 2022 and February 10, 2023. The maximum time gap between any two meetings was 91 days and the minimum gap was 10 days. The meetings are normally held at Mumbai.

Risk Management

The Company has a business risk management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimise adverse impact on the business objective and enhance company's competitive advantage. The business risk framework defines the risk management approach across the Company at various levels including documentation and reporting. The framework has different risk Models, which helps in identifying risk trend, exposure and potential impact analysis at a Company level.

Auditors and Auditors' Report

At the 17th Annual General Meeting (AGM) held on September 28, 2019, M/s. Ajay Agarwal and Co, Chartered Accountants were re-appointed as the statutory auditors of the Company for a period five years to hold office till the conclusion of the 22th AGM to be held for the financial year 2023-24. The Company has received a confirmation from the Auditors that they are not disqualified to act as the Auditors and eligible to hold the office as Auditors of the Company.

The observations and comments given by the Auditors in their report read together with notes on financial statements are self-explanatory and hence do not call for any further comments under Section 134 of the Companies Act, 2013.

Financial Statements - Application of Indian Accounting Standards (Ind AS) Rules, 2015.

Ministry of Corporate Affairs (MCA) vide its Notification No. G.S.R. 111(E) dated February 16, 2015, has made the application of the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS Rules) effective from April 1, 2015.

The audited financial statement drawn up for the financial year ended March 31, 2023, in accordance with the requirements of the above said Rules.

Corporate Social Responsibility

The Company is not falling under the purview of Section 135 of the Act and hence disclosures with respect to CSR activities are not applicable to the Company.

Particulars of Employees

Section 197 of the Act read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 is not applicable to the Company.

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

As the Company does not involve any manufacturing activity, most of the information's as required under Section 134(3)(m) of the Companies Act, 2013, read with Rule 8 of the Companies (Accounts) Rules, 2014 is not applicable the Company. However, the information as applicable has been given in the Annexure – A forming part of this Report.

INDEPENDENT AUDITOR'S REPORT

To the Members of Campion Properties Limited
 Report on the Standalone Financial Statements
 Qualified Opinion

We have audited the standalone financial statements of Campion Properties Limited ("the Company"), which comprise the balance sheet as at 31 st March 2023, and the statement of Profit and loss, statement of cash flows, and Statement of change in Equity for the year ended, and notes to the financial statement, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of matter described on the basis for Qualified Opinion Paragraph the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its loss, Changes in equity and its cash flow for the year ended on that date.

Basis for Qualified Opinion

We draw attention to Note No. 27(a) in the financial statement, which indicate that the company incurred a net loss of Rs.4,45,80,461 for the year ended 2022-23 and, as of that date Company's current liabilities exceeded its total assets by Rs. 78,64,78,556. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2023, which exceeds the accumulated losses by approx. Rs. 600 crores. The company does not have any external borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis. However, in view of the above uncertainties, we are unable to comment on the ability of the company to continue as a going concern and the consequential to accompanying financial statements, if any, that might have been necessarily had the financial statements prepared under liquidation basis.

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those Board of director are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence

ons of users taken on the basis of these financial statements.

n accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether and company has adequate internal financial controls system in place and the operating effectiveness of such controls.

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we report that in our opinion the said order is applicable to the company, hence comments on the matters specified in paragraphs 3 and 4 of the said order are required and are given in Annexure-1

2. As required by section 143(3) of the Act, we further report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

(c) The standalone Balance Sheet, Statement of Profit & Loss and cash flow statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.

(e) The Going Concern matter described in basis for Qualified opinion selection related to Going Concern Paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

(f) On the basis of written representations received from the directors as on March 31, 2023 and taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure-II.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us:-

(i) The Company does not have any pending litigations which would impact its financial position.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The company has not declared any dividend during the year under reference.

(vi) Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of Account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

Annexure-I to the Auditor's Report

The Annexure referred to in paragraph 1 of our report of even date to the members of Campion Properties Limited on the accounts of the company for the year ended 31st March, 2023.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

1. In respect of Fixed Assets :

(a) The company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;

(b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals and no material discrepancies were noticed on such verification.

(c) Title deed of immovable property is held by the Company as Fixed Assets.

(d) The company has not revalued its Property, plant and equipment during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rule made hereunder.

2. In respect of its inventories:

There is no inventory maintained by entity.

3. According to the information and explanations given to us and on the basis of our examination of the books of account, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties listed in the register maintained under Section 189 of the Companies Act, 2013. Consequently, the provisions of clauses iii of the order are not applicable to the Company.

4. In our opinion, the company has not granted any loans, investments and guarantees, therefore, Clause iv of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

5. The company has not accepted deposits during the year.

6. The company is not required to maintain the cost records which has been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.

7. In respect of statutory dues:

(a) The company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, , service tax, duty of customs, duty of excise, value added tax, and any other statutory dues with the appropriate authorities.

(b) The company does not have any dues of income tax or sales-tax or service tax or duty of customs or duty of excise or value added tax on account of any dispute.

8. Since no tax assessments during the year, hence no transactions has been surrendered as income during the year in tax assessments. Hence clause viii of the Companies (Auditor's Report) Order 2020 is not applicable.

9. The company does not have any loans or borrowings from financial institution or bank or debenture holders, therefore, the clause ix of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

10. (a) No money has been raised by way of public issue or follow-on offer (including debt instruments) and term loans were applied for the purposes for which those are raised.

(b) The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

11. (a) No fraud has been made by the company nor has any fraud on the Company by its officers or employees been noticed or reported during the year.

(b) No report under subsection (12) of section 143 of the Companies Act has been filed in form ADT-4.

(c) No whistle blowers complaints received during the year.

12. In our opinion, the company is not Nidhi Company. Therefore, the clause xii of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

13. All transactions with the related parties are in compliance with Section 188 and 177 of Companies Act, 2013 and have been disclosed in the Financial Statements etc as required by the accounting standards and Companies Act, 2013.

14. Since the Company does not have any operations and Section 138 of the Companies Act, 2013 is also not applicable, therefore, clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

15. The company has not entered into any non-cash transactions with directors or persons connected with him.

16. The company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable.

17. The company has not incurred cash losses in the financial year and in the immediately preceding financial year.

18. There has been no instance of any resignation of the statutory auditors occurred during the year.

19. Material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of 1 year from the balance sheet date.

We draw attention to Note No. 27(a) in the financial statement. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factors indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

20. Clause xx of the Companies (Auditor's Report) Order 2020 is not applicable to the company since there is no requirement of CSR Expenditure as per section 135 of the said act.

Annexure -II to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Campion Properties Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Disclosure of significant accounting policies [Text Block]

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

or

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

significant accounting policies

summary of the significant accounting policies applied in the preparation of the financial statements as given below. These accounting policies have been applied consistently in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the time value of money is not material, provisions are determined by the undiscounted cash flows. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

l. Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1 Basis of preparation of Financial Statements :

Statement of Compliance

The financial statements are prepared under historical cost convention generally accepted accounting principles (GAAP) in India and standards specified under Section 133 the Companies Act, 2013 ("Companies (Indian Accounting Standards) Rules 2015, Companies Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a fair value hierarchy based on the inputs used in the valuation technique. The hierarchy has three levels: Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments that are held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinathrao

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Textual information (26)

Description of accounting policy for financial instruments [Text Block]

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the asset and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income or loss. The losses arising from impairment are recognised in the profit or loss. Trade and other receivables.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

any decides to classify an equity instrument as at FVOCI, then dividends, are recognized in the OCI. There is no recycling of the value of investment. However, the Company may transfer the cumulative

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

abilities

gnition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Textual information (27)

Description of accounting policy for financial instruments [Text Block]

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the asset and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income or expense. The losses arising from impairment are recognised in the profit or loss. Trade and other receivables.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

any decides to classify an equity instrument as at FVOCI, then dividends, are recognized in the OCI. There is no recycling of the value of investment. However, the Company may transfer the cumulative

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

abilities

gnition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY

including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Description of accounting policy for impairment of non-financial assets [Text Block]

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

Description of accounting policy for income tax [Text Block]

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax as per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

Description of accounting policy for leases [Text Block]

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

Description of accounting policy for provisions [Text Block]

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Description of other accounting policies relevant to understanding of financial statements [Text Block]**d. Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Disclosure of significant accounting policies [Text Block]

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1 Basis of preparation of Financial Statements :

a Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 1956 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The company followed the provisions of Ind AS 101 in preparing its opening Balance Sheet as at the date of transition, viz. 1 April 2015. Some of the Company's Ind AS 101 opening Balance Sheet are different from its previous GAAP opening Balance Sheet as at 31 March 2015, but no additional transitional adjustments were required as per the Companies Act, 2013 and Accounting Standards.

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from observable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

or

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

significant accounting policies

summary of the significant accounting policies applied in the preparation of the financial statements as given below. These accounting policies have been applied consistently in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments that are held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Building	60 Years

Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the effect of the time value of money is not material, provisions are determined by discounting the expected future cash flows at the current market assessments of the time value of money. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense in the year in which they are incurred.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

1.3 First-time Ind AS adoption reconciliations

The Company has adopted Indian Accounting Standard (Ind AS) from April 1, 2016 with a transition date of April 1, 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Note 1.
Corporate
Information,
Basis of
Preparation
of Financials
and
Significant
Accounting
Policies

1.1 Background of the Company:

a. Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1 Basis of preparation of Financial Statements :

Statement of Compliance

The financial statements are prepared under historical cost convention generally accepted accounting principles (GAAP) in India and standards specified under Section 133 the Companies Act, 2013 ("Companies (Indian Accounting Standards) Rules 2015, Companies Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (ICAI).

For all the periods up to and including 31 March 2016, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable), applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition, viz. 1 April 2015. Some of the Company's Ind AS accounting policies used in

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

the opening Balance Sheet are different from its previous GAAP policies applied as at 31 March 2015, but no additional transitional adjustments were required as correspond to previous applicable Accounting Standards.

b. Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below.

The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable market data as far as possible. Fair values are categorized into a fair value hierarchy based on the inputs used in the valuation technique:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle;

It is held primarily for the purpose of trading; or

It is expected to realise the asset within 12 months after the reporting period; or

The asset is a cash or equivalent unless it is restricted from being available for at least 12 months after the reporting period.

other assets are classified as non-current.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

e. Use of Estimates :

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

Equity investments in scope of Ind-AS 109 are measured at fair value. Equity investments held for trading are classified as at FVTPL. For all other equity instruments, the company decides

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the provision is updated and changes in the forward-looking estimates are ana

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

a.2 Financial liabilities

a.2.1 Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

rowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

b. Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

recognition

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

c. Investment Properties

Initial recognition and measurement:

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

d. Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

e. Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's

Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

ime of Assets

rniture & Fittings

Life in
years

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT** rs

Office Equipment	Years

Plant & Machinery	15 Years

(ii) Amortisation:

Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years
Building	60 Years
Leasehold Improvements	99 Years (lease period)

f. Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior counting period is increased / reversed where there is change in the estimate of recoverable value. e recoverable value is higher of net selling price and value in use.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Other borrowing costs are recognized as an expense in the year in which they are incurred.

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. If the time value of money is not material, provisions are determined by the undiscounted cash flows. When discounting is used, the increase in the provision due to the time value of money is recognized as an expense.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of expected future refunds from the plan or reductions in future contributions. An economic benefit is available to the Company if it is realizable during the settlement of the plan liabilities. Any actuarial gains or losses are recognized in the period in which they arise.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

When the benefits of a plan are improved, the portion of the increased benefit relating to past service

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

ort-term benefits

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual

leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l. Foreign Currency Transactions

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m. Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits deductible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in OCI or equity.

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o. Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

ish flow statement

ish flow statement is prepared in accordance with the indirect method of Cash Flows'.

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

q. Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Textual information (56)

Description of other accounting policies relevant to understanding of financial statements [Text Block]**d. Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY

Disclosure of financial instruments [Text Block]

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Note
27 Other Disclosures

a) Basis of Preparation of Financial Statements

The Company has incurred a net loss of Rs. 44,580,461 for the Period 1st April, 2022 to 31 March, 2023 and, as of that date Company's current liabilities exceeded its total assets by Rs. 78,64,78,556 . The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

However the Company does not have any intention to suspend the operational activities. The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2023, which exceeds the accumulated losses by approx Rs.600 crores. The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

TRUE COPY H. Srinathrao

b) Disclosure of Compliance with IND AS

The Company has adopted Indian Accounting Standards ("Ind-AS") and these financial statements have been prepared in accordance with the principles of recognition and measurement of Ind AS, prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder. Accordingly, the annual financial statements of the previous periods are restated as per Ind AS.

c) In the opinion of the management, the current assets and loans & advances are at least equal to the value stated in the Balance Sheet, if realized in the ordinary course of business.

d) Balances with Trade receivables / trade payables are subject to confirmation/ reconciliation.

Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are related companies there is no or minimal risk of default by customers as the rental are to be recovered from within group.

b. Liquidity risk:

at an entity will encounter difficulty in meeting associated with financial liabilities that are settled by cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from leasing and interest income. Further, the company coordinates debts and other debts from the Holding to meet out the operational cost.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of trade payables on a regular basis with the help of the group treasury team. Further the company may enter into derivatives if the exposure arising out of these risks exceeds significantly.

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Note
24 Deferred Tax (Assets)/ Liabilities

In compliance with IND AS-12, "Income Taxes" prescribed under the Companies (Indian Accounting Standards) Rules, 2015, the deferred tax asset arising on account of brought forward losses and unabsorbed depreciation has not been recognised in view of consideration of prudence and uncertainty regarding the realisation of the same in the future.

Disclosure in board of directors report explanatory [Text Block]

Directors' Report

Dear Shareowners,

Your Directors present the 22 nd Annual Report and the audited accounts of the Company for the financial year ended March 31, 2024.

Financial performance and Business Operations

During the year under review, your Company has earned an income of Rs. 131.03 lacs as compared to the previous year nil income. The Company has incurred loss of Rs. 339.74 lacs for the year as compared to loss of Rs. 445.80 lacs in the previous year.

Dividend

During the year under review, the Board of Directors has not recommended any dividend on the equity shares of the Company.

Reserve

In view of the loss, no amount has been carried to any reserve.

Subsidiary / Holding Company

There was no subsidiary company as on March 31, 2024. Reliance Communications Limited (RCOM) remains the holding company.

RCOM is under Corporate Insolvency Resolution Process pursuant to the provisions of the Insolvency and Bankruptcy Code, 2016 and its affairs, business and assets are being managed by, and the powers of the board of directors of RCOM are vested in, the Resolution Professional appointed by Hon'ble National Company Law Tribunal, Mumbai Bench, Mumbai.

Deposits

The Company has not accepted deposit from the public falling within the ambit of Section 73 of the Companies Act, 2013 (Act) and the Companies (Acceptance of Deposits) Rules, 2014.

Particulars of Loans, Guarantees or Investments

The Company has not made any loans, provided any guarantee or made any investments within the preview of Section 186 of the Act .

Directors

Ms Trusha Deepak Shah (DIN: 08969726), Director is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment, offers herself for re-appointment at the ensuing Annual General Meeting.

There was no change in Directors of the Company.

Key Managerial Personnel

As per Section 203 of the Act, the Company is not required to appoint Key Managerial Personnel of the Company.

Policy on Directors, Key Managerial Personnel and other Senior Employees Appointment and Remuneration

The Nomination and Remuneration Committee of the Board has devised a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their Remuneration. The Committee has formulated the criteria for determining the qualifications, positive attributes and independence of a Director.

Evaluation of Directors, Board and Committees

As per the requirement of the Act, policy for performance evaluation of the individual directors, Board and its Committee, which includes criteria for performance evaluation not applicable to the Company.

Directors' Responsibility Statement

Pursuant to the requirements under Section 134(3)(c) of the Companies Act, 2013 with respect to Directors' Responsibility Statement, it is hereby confirmed that:

in the preparation of the annual financial statements for financial year ended March 31, 2024, the applicable Accounting Standards had been followed along with proper explanation relating to material departures, if any;

the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and a true and fair view of the state of affairs of the Company as at March 31, 2024 and of the loss of the Company for the late;

the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of 2013 for safeguarding the assets of the Company and for preventing a

the Directors had laid down internal financial controls to be followed by the Company and such financial controls are adequate and are operating effectively, and

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

the Directors have devised proper systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

Related Party Transactions

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors or other designated persons, which may have a potential conflict with the interest of the Company at large.

None of the Directors has any pecuniary relationships or transactions vis-à-vis the Company.

Material Changes and Commitments if any affecting the financial position of the Company

There was no material change and commitment affecting the financial position of the Company.

Meetings of the Board

During the period, Four Board Meetings were held on May 25, 2023, August 09, 2023, November 08, 2023, and February 08, 2024. The maximum time gap between any two meetings was 91 days and the minimum gap was 75 days. The meetings are normally held at Mumbai.

Risk Management

The Company has a business risk management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimise adverse impact on the business objective and enhance company's competitive advantage. The business risk framework defines the risk management approach across the Company at various levels including documentation and reporting. The framework has different risk Models, which helps in identifying risk trend, exposure and potential impact analysis at a Company level.

Auditors and Auditors' Report

At the 17th Annual General Meeting (AGM) held on September 28, 2019, M/s. Ajay Agarwal and Co, Chartered Accountants were re-appointed as the statutory auditors of the Company for a period five years to hold office till the conclusion of the 22th AGM to be held for the financial year 2023-24 .

In view of the above, the term of appointment of M/s. Ajay Agarwal and Co, Chartered Accountants, as statutory auditor is expiring at the ensuing AGM. The Board of Director has proposed to re-appoint M/s. Ajay Agarwal and Co, Chartered Accountants as statutory auditor of the Company to hold office from conclusion of ensuing AGM till the conclusion of AGM to be held for financial year 2028-29.

The Company has received confirmation from M/s. Ajay Agarwal and Co, Chartered Accountants to the effect that their appointment, if made, would be within the prescribed limits under Section 141(3) of the Act and that they are not disqualified from appointment as statutory auditors of the Company.

The observations and comments given by the Auditors in their report read together with notes on financial statements are self-explanatory and hence do not call for any further comments under Section 134 of the Companies Act, 2013.

Financial Statements - Application of Indian Accounting Standards (Ind AS) Rules, 2015.

Ministry of Corporate Affairs (MCA) vide its Notification No. G.S.R. 111(E) dated February 16, 2015, has made the application of the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS Rules) effective from April 1, 2015.

The audited financial statement drawn up for the financial year ended March 31, 2024, in accordance with the requirements of the above said Rules.

Corporate Social Responsibility

The Company is not falling under the purview of Section 135 of the Act and hence disclosures with respect to CSR activities are not applicable to the Company.

Particulars of Employees

Section 197 of the Act read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 is not applicable to the Company.

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

As the Company does not involve any manufacturing activity, most of the information's as required under Section 134(3)(m) of the Companies Act 2013, read with Rule 8 of the Companies (Accounts) Rules, 2014 is not applicable the Company. However, the information en given in the Annexure – A forming part of this Report.

INDEPENDENT AUDITOR'S REPORT

To the Members of Campion Properties Limited

Report on the Standalone Financial Statements

Qualified Opinion

We have audited the standalone financial statements of Campion Properties Limited ("the Company"), which comprise the balance sheet as at 31 st March 2024, and the statement of Profit and loss, statement of cash flows, and Statement of change in Equity for the year ended, and notes to the financial statement, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of matter described on the basis for Qualified Opinion Paragraph the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, Changes in equity and its cash flow for the year ended on that date.

Basis for Qualified Opinion

We draw attention to Note No. 27(a) in the financial statement, which indicate that the company incurred a net loss of Rs. 3,39,73,590.23 for the year ended 2023-24 and, as of that date Company's current liabilities exceeded its total assets by Rs. 82,04,50,842.6. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2024, which exceeds the accumulated losses by approx. Rs. 600 crores . The company does not have any external borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis. However, in view of the above uncertainties, we are unable to comment on the ability of the company to continue as a going concern and the consequential to accompanying financial statements, if any, that might have been necessarily had the financial statements prepared under liquidation basis.

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note No. 27(e) in the financial statements, which states that The company has entered into lease agreement with Reliance Communication LTD in respect of property Ground floor and 3rd floor of building, situated at plot no. 1101, Maharaja Ranjit Singh Marg, New Delhi, NCR- 110002 and Reliance Communication LTD is under corporate Insolvency resolution process (CIRP). Our opinion is not modified in respect of this matter.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies ; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the company's ability to continue as a going concern, as applicable, matters related to going concern and using the going concern basis of accounting unless management concludes that the company is unable to continue as a going concern, or to cease operations, or has no realistic alternative but to do so.

The Auditor's responsibilities as stated above are not intended to absolve the management and the Board of Directors of their responsibilities and they are also responsible for overseeing the company's financial reporting process.

The Auditor's responsibilities for the Audit of the Standalone Financial Statements

are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. An audit conducted in accordance with SAs will always detect a material misstatement, if it exists, but it is not guaranteed to detect all material misstatements. Material misstatements are those that, individually or in the aggregate, are considered material if, individually or in the aggregate, they are likely to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we report that in our opinion the said order is applicable to the company, hence comments on the matters specified in paragraphs 3 and 4 of the said order are required and are given in Annexure-1

2. As required by section 143(3) of the Act, we further report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

(c) The standalone Balance Sheet, Statement of Profit & Loss and cash flow statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.

(e) The Going Concern matter described in basis for Qualified opinion selection related to Going Concern Paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

(f) On the basis of written representations received from the directors as on March 31, 2024 and taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure-II.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us:-

(i) The Company does not have any pending litigations which would impact its financial position.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The company has not declared any dividend during the year under reference.

As per section 3(1) of the Companies (Accounts) Rules, 2014 for maintaining book of account, the Company has installed accounting software which has a feature of recording audit trail (edit log) and has provided access to the Company with effect from April 1, 2023, and Based on our examination, the accounting software for maintaining its books of account which has a feature of recording audit trail throughout the year for all relevant transactions recorded in the software, we have not come across any instance of audit trail feature being tampered with. [Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.]

Annexure-I to the Auditor's Report

The Annexure referred to in paragraph 1 of our report of even date to the members of Campion Properties Limited on the accounts of the company for the year ended 31st March, 2024.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

1. In respect of Fixed Assets :

(a) The company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;

(b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals and no material discrepancies were noticed on such verification.

(c) Title deed of immovable property is held by the Company as Fixed Assets.

(d) The company has not revalued its Property, plant and equipment during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rule made hereunder.

2. In respect of its inventories:

There is no inventory maintained by entity.

3. According to the information and explanations given to us and on the basis of our examination of the books of account, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties listed in the register maintained under Section 189 of the Companies Act, 2013. Consequently, the provisions of clauses iii of the order are not applicable to the Company.

4. In our opinion, the company has not granted any loans, investments and guarantees, therefore, Clause iv of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

5. The company has not accepted deposits during the year.

6. The company is not required to maintain the cost records which has been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.

7. In respect of statutory dues:

(a) The company is not regular in depositing undisputed statutory dues in certain cases including provident fund, employees' state insurance, income-tax, sales-tax, , service tax, duty of customs, duty of excise, value added tax, and any other statutory dues with the appropriate authorities.

(b) The company does not have any dues of income tax or sales-tax or service tax or duty of customs or duty of excise or value added tax on account of any dispute.

8. Since no tax assessments during the year, hence no transactions has been surrendered as income during the year in tax assessments. Hence clause viii of the Companies (Auditor's Report) Order 2020 is not applicable.

9. The company does not have any loans or borrowings from financial institution or bank or debenture holders, therefore, the clause ix of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

10. (a) No money has been raised by way of public issue or follow-on offer (including debt instruments) and term loans were applied for the purposes for which those are raised.

(b) The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

11. (a) No fraud has been made by the company nor has any fraud on the Company by its officers or employees been noticed or reported during the year.

(b) No report under subsection (12) of section 143 of the Companies Act has been filed in form ADT-4.

(c) No whistle blowers complaints received during the year.

12. In our opinion, the company is not Nidhi Company. Therefore, the clause xii of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

13. All transactions with the related parties are in compliance with Section 188 and 177 of Companies Act, 2013 and have been disclosed in the Financial Statements etc as required by the accounting standards and Companies Act, 2013.

14. Since the Company does not have any operations and Section 138 of the Companies Act, 2013 is also not applicable, therefore, clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

15. The company has not entered into any non-cash transactions with directors or persons connected with him.

16. The company is not required to be register under section 45-IA of the Reserve Bank of India Act, 1934. Hence clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable.

17. The company has not incurred cash losses in the financial year and in the immediately preceding financial year.

18. There has been no instance of any resignation of the statutory auditors occurred during the year.

Integrity exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of when they fall due within a period of 1 year from the balance sheet date.

As per Note No. 27(a) in the financial statement. The company is wholly owned subsidiary of Reliance Communications

Communications Ltd. is under resolution processed under The Insolvency and operation of the holding company is under the control and NCLT orders dated May 18. These factor indicate that a material u

continue as going concern.

Companies (Auditor's Report) Order 2020 is not applicable to the cor

Expenditure as per section 135 of the said act.

Annexure -II to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Campion Properties Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financials Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY *H. Srinathrao*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 meets amortized cost or FVTPL criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:
I) The rights to receive cash flows from the asset have expired
II) The company has transferred its right to receive cash flows from the asset to another entity
as the company has no obligation to pay the received cash flows in full without material delay to a third party

a.1.3

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the acquisition of the financial liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Name of Assets

... in years

Furniture & Fittings	10 Years
Office Equipment	05 Years
Plant & Machinery	15 Years

(ii) Amortisation:
Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years

Leasehold Improvements	99 Years (lease period)

e.

Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO
OF

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

Pr
the
ba
the
the provisions of the Income Tax Act, 1961. Current tax is determined

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinathrao*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

**TRUE COPY** H. Srinathrao**THIS ANNEXURE IS THE TRUE COPY

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Textual information (28)

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinathrao)

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financials Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

cl

OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:
I) The rights to receive cash flows from the asset have expired
II) The company has transferred its right to receive cash flows from the asset to another entity
as the company has no obligation to pay the received cash flows in full without material delay to a third party

a.1.4

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

TRUE COPY H. Eyrathalany

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

e.

Impairment of Non- Financial Assets
:

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO
OF

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinath*

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Description of accounting policy for borrowing costs [Text Block]

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Other borrowing costs are recognized as an expense in the year in which they are incurred.

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Description of accounting policy for employee benefits [Text Block]

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

Textual information (35)

Description of accounting policy for financial instruments [Text Block]

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the asset and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income or loss. The losses arising from impairment are recognised in the profit or loss. Trade and other receivables.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

any decides to classify an equity instrument as at FVOCI, then dividends, are recognized in the OCI. There is no recycling of the value of investment. However, the Company may transfer the cumu

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

abilities

gnition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Textual information (36)**Description of accounting policy for foreign currency translation [Text Block]****I. Foreign Currency Transactions**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

Textual information (37)**Description of accounting policy for functional currency [Text Block]****c. Functional and presentation currency**

Textual information (38)

Description of accounting policy for impairment of non-financial assets [Text Block]**f. Impairment of Non- Financial Assets :**

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

Textual information (39)

Description of accounting policy for income tax [Text Block]

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax as per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

OF THE ORIGINAL DOCUMENT**

Textual information (40)

Description of accounting policy for intangible assets other than goodwill [Text Block]**d. Intangible Assets other than Goodwill****Initial recognition and measurement**

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Textual information (41)

Description of accounting policy for investment property [Text Block]**c. Investment Properties****Initial recognition and measurement:**

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Textual information (42)

Description of accounting policy for leases [Text Block]

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

Textual information (43)

Description of accounting policy for property, plant and equipment [Text Block]**b. Property, Plant & Equipment :****Initial recognition and measurement**

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

OF THE ORIGINAL DOCUMENT**

Textual information (44)

Description of accounting policy for provisions [Text Block]

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Textual information (45)

Description of accounting policy for recognition of revenue [Text Block]

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

Textual information (46)

Description of other accounting policies relevant to understanding of financial statements [Text Block]**d. Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 meets amortized cost or FVTPL criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:

I) The rights to receive cash flows

fr

II)

rig

as

to pay the received cash flows in full without material delay to a third party

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

e.

Impairment of Non- Financial Assets
:

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO TRUE COPY H. Srinathrao
of

Ca THIS ANNEXURE IS THE TRUE COPY
ce OF THE ORIGINAL DOCUMENT
activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

TRUE COPY H. Srinath
Pr the ba the provisions of the Income Tax Act, 1961. Current tax is determined

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

**TRUE COPY** H. Srinathrao**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of liabilities of that subsidiary are classified as held for sale. If the above conditions described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on the initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Srinathrao) THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

cl
th
a
meets amortized cost or FVTOCI criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:
I) The rights to receive cash flows from the asset have expired
II) The company has transferred its right to receive cash flows from the asset to another entity
as the company has no obligation to pay the received cash flows in full without material delay to a third party

TRUE COPY H. Srinath

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the liability.

Financial liabilities are classified as current liabilities if they are due or payable within twelve months from the reporting date, and as non-current liabilities otherwise.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

Building	60 Years
Leasehold Improvements	99 Years (lease period)

e.

Impairment of Non- Financial Assets
:

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO TRUE COPY H. Srinathrao
of

Ca THIS ANNEXURE IS THE TRUE COPY
ce OF THE ORIGINAL DOCUMENT

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinathrao*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
 pri
 go
 re
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

TRUE COPY H. Srinath
Pr the ba the
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
the provisions of the Income Tax Act, 1961. Current tax is determined

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinathrao
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Textual information (52)

Description of other accounting policies relevant to understanding of financial statements [Text Block]**d. Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Disclosure of financial instruments [Text Block]

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities are their carrying amounts largely due to the short term maturities of these instruments.

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Note
26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are related companies there is no or minimal risk of default by customers as the rental are to be recovered from within group.

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of trade payables on a regular basis with the help of the group treasury team. Further the company may enter into derivatives if the exposure arising out of these risks exceeds significantly.

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

However the Company does not have any intention to suspend the operational activities. The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st Dec 2023, which exceeds the accumulated losses by approx Rs.600 crores. The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

b) Disclosure of Compliance with IND AS

The Company has adopted Indian Accounting Standards ("Ind-AS") and these financial statements have been prepared in accordance with the principles of recognition and measurement of Ind AS, prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder. Accordingly, the annual financial statements of the previous periods are restated as per Ind AS.

c) In the opinion of the management, the current assets and loans & advances are at least equal to the value stated in the Balance Sheet, if realized in the ordinary course of business.

with Trade receivables / trade payables are subject to confirmation/ reconciliation.

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Note 26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

Exposure to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The credit risks relate to the leasing activities and non payment of lease rentals. The credit risks are managed by leasing out the properties to group companies or related companies there is no or minimal risk of default by them. If the lessee is a related company, the risk is managed from within group.

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of trade payables on a regular basis with the help of the group treasury team. Further the company may enter into derivatives if the exposure arising out of these risks exceeds significantly.

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of market interest rates. The Company's exposure to the risk of changes in market interest rates is not by taking interest free loan.

Directors

Ms Trusha Deepak Shah (DIN: 08969726), Director is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment, offers herself for re-appointment at the ensuing Annual General Meeting.

There was no change in Directors of the Company.

Key Managerial Personnel

As per Section 203 of the Act, the Company is not required to appoint Key Managerial Personnel of the Company.

Policy on Directors, Key Managerial Personnel and other Senior Employees Appointment and Remuneration

The Nomination and Remuneration Committee of the Board has devised a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their Remuneration. The Committee has formulated the criteria for determining the qualifications, positive attributes and independence of a Director.

Evaluation of Directors, Board and Committees

As per the requirement of the Act, policy for performance evaluation of the individual directors, Board and its Committee, which includes criteria for performance evaluation not applicable to the Company.

Directors' Responsibility Statement

Pursuant to the requirements under Section 134(3)(c) of the Companies Act, 2013 with respect to Directors' Responsibility Statement, it is hereby confirmed that:

in the preparation of the annual financial statements for financial year ended March 31, 2024, the applicable Accounting Standards had been followed along with proper explanation relating to material departures, if any;

the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and are a true and fair view of the state of affairs of the Company as at March 31, 2024 and of the loss of the Company for the year ended March 31, 2024;

the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

the Directors had prepared the annual financial statements for the financial year ended March 31, 2024, in accordance with the applicable Accounting Standards;

the Directors had laid down internal financial controls to be followed by the Company and were satisfied that these controls are adequate and are operating effectively, and

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

the Directors have devised proper systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

Related Party Transactions

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors or other designated persons, which may have a potential conflict with the interest of the Company at large.

None of the Directors has any pecuniary relationships or transactions vis-à-vis the Company.

Material Changes and Commitments if any affecting the financial position of the Company

There was no material change and commitment affecting the financial position of the Company.

Meetings of the Board

During the period, Four Board Meetings were held on May 25, 2023, August 09, 2023, November 08, 2023, and February 08, 2024. The maximum time gap between any two meetings was 91 days and the minimum gap was 75 days. The meetings are normally held at Mumbai.

Risk Management

The Company has a business risk management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimise adverse impact on the business objective and enhance company's competitive advantage. The business risk framework defines the risk management approach across the Company at various levels including documentation and reporting. The framework has different risk Models, which helps in identifying risk trend, exposure and potential impact analysis at a Company level.

Auditors and Auditors' Report

At the 17 th Annual General Meeting (AGM) held on September 28, 2019, M/s. Ajay Agarwal and Co, Chartered Accountants were re-appointed as the statutory auditors of the Company for a period five years to hold office till the conclusion of the 22th AGM to be held for the financial year 2023-24 .

In view of the above, the term of appointment of M/s. Ajay Agarwal and Co, Chartered Accountants, as statutory auditor is expiring at the ensuing AGM. The Board of Director has proposed to re-appoint M/s. Ajay Agarwal and Co, Chartered Accountants as statutory auditor of the Company to hold office from conclusion of ensuing AGM till the conclusion of AGM to be held for financial year 2028-29.

The Company has received confirmation from M/s. Ajay Agarwal and Co, Chartered Accountants to the effect that their appointment, if made, would be within the prescribed limits under Section 141(3) of the Act and that they are not disqualified from appointment as statutory auditors of the Company.

The observations and comments given by the Auditors in their report read together with notes on financial statements are self-explanatory and hence do not call for any further comments under Section 134 of the Companies Act, 2013.

Financial Statements - Application of Indian Accounting Standards (Ind AS) Rules, 2015.

Ministry of Corporate Affairs (MCA) vide its Notification No. G.S.R. 111(E) dated February 16, 2015, has made the application of the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS Rules) effective from April 1, 2015.

The audited financial statement drawn up for the financial year ended March 31, 2024, in accordance with the requirements of the above said Rules.

INDEPENDENT AUDITOR'S REPORT

To the Members of Campion Properties Limited

Report on the Standalone Financial Statements

Qualified Opinion

We have audited the standalone financial statements of Campion Properties Limited ("the Company"), which comprise the balance sheet as at 31 st March 2024, and the statement of Profit and loss, statement of cash flows, and Statement of change in Equity for the year ended, and notes to the financial statement, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of matter described on the basis for Qualified Opinion Paragraph the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, Changes in equity and its cash flow for the year ended on that date.

Basis for Qualified Opinion

We draw attention to Note No. 27(a) in the financial statement, which indicate that the company incurred a net loss of Rs. 3,39,73,590.23 for the year ended 2023-24 and, as of that date Company's current liabilities exceeded its total assets by Rs. 82,04,50,842.6. The company is wholly owned subsidiary of Reliance Communications limited. Reliance Communications Ltd. is under resolution processed under The Insolvency and Bankruptcy Code 2016 (IBC). As a consequence, management and operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st March 2024, which exceeds the accumulated losses by approx. Rs. 600 crores . The company does not have any external borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis. However, in view of the above uncertainties, we are unable to comment on the ability of the company to continue as a going concern and the consequential to accompanying financial statements, if any, that might have been necessarily had the financial statements prepared under liquidation basis.

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note No. 27(e) in the financial statements, which states that The company has entered into lease agreement with Reliance Communication LTD in respect of property Ground floor and 3rd floor of building, situated at plot no. 1101, Maharaja Ranjit Singh Marg, New Delhi, NCR- 110002 and Reliance Communication LTD is under corporate Insolvency resolution process (CIRP). Our opinion is not modified in respect of this matter.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies ; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the company's ability to continue as a going concern, as applicable, matters related to going concern and using the going concern basis of accounting unless management concludes that the company is unable to continue as a going concern, or to cease operations, or has no realistic alternative but to do so.

The Auditor's responsibilities as stated above are not intended to absolve the management and the Board of Directors of their responsibilities and they are also responsible for overseeing the company's financial reporting process.

The Auditor's responsibilities for the Audit of the Standalone Financial Statements

are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. An audit conducted in accordance with SAs will always detect a material misstatement, if it exists, but it is not guaranteed to detect all material misstatements. Material misstatements are those that, individually or in the aggregate, are considered material if, individually or in the aggregate, they are likely to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we report that in our opinion the said order is applicable to the company, hence comments on the matters specified in paragraphs 3 and 4 of the said order are required and are given in Annexure-1

2. As required by section 143(3) of the Act, we further report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

(c) The standalone Balance Sheet, Statement of Profit & Loss and cash flow statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.

(e) The Going Concern matter described in basis for Qualified opinion selection related to Going Concern Paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

(f) On the basis of written representations received from the directors as on March 31, 2024 and taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure-II.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us:-

(i) The Company does not have any pending litigations which would impact its financial position.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The company has not declared any dividend during the year under reference.

As per section 3(1) of the Companies (Accounts) Rules, 2014 for maintaining book of account, the Company has installed accounting software which has a feature of recording audit trail (edit log) and has provided access to the Company with effect from April 1, 2023, and Based on our examination, the accounting software for maintaining its books of account which has a feature of recording audit trail throughout the year for all relevant transactions recorded in the software, we did not come across any instance of audit trail feature being tampered with. [Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.]

Annexure-I to the Auditor's Report

The Annexure referred to in paragraph 1 of our report of even date to the members of Campion Properties Limited on the accounts of the company for the year ended 31st March, 2024.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

1. In respect of Fixed Assets :

(a) The company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;

(b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals and no material discrepancies were noticed on such verification.

(c) Title deed of immovable property is held by the Company as Fixed Assets.

(d) The company has not revalued its Property, plant and equipment during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rule made hereunder.

2. In respect of its inventories:

There is no inventory maintained by entity.

3. According to the information and explanations given to us and on the basis of our examination of the books of account, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties listed in the register maintained under Section 189 of the Companies Act, 2013. Consequently, the provisions of clauses iii of the order are not applicable to the Company.

4. In our opinion, the company has not granted any loans, investments and guarantees, therefore, Clause iv of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

5. The company has not accepted deposits during the year.

6. The company is not required to maintain the cost records which has been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.

7. In respect of statutory dues:

(a) The company is not regular in depositing undisputed statutory dues in certain cases including provident fund, employees' state insurance, income-tax, sales-tax, , service tax, duty of customs, duty of excise, value added tax, and any other statutory dues with the appropriate authorities.

(b) The company does not have any dues of income tax or sales-tax or service tax or duty of customs or duty of excise or value added tax on account of any dispute.

8. Since no tax assessments during the year, hence no transactions has been surrendered as income during the year in tax assessments. Hence clause viii of the Companies (Auditor's Report) Order 2020 is not applicable.

9. The company does not have any loans or borrowings from financial institution or bank or debenture holders, therefore, the clause ix of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

10. (a) No money has been raised by way of public issue or follow-on offer (including debt instruments) and term loans were applied for the purposes for which those are raised.

(b) The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

11. (a) No fraud has been made by the company nor has any fraud on the Company by its officers or employees been noticed or reported during the year.

(b) No report under subsection (12) of section 143 of the Companies Act has been filed in form ADT-4.

(c) No whistle blowers complaints received during the year.

12. In our opinion, the company is not Nidhi Company. Therefore, the clause xii of the Companies (Auditor's Report) Order 2020 is not applicable to the company.

13. All transactions with the related parties are in compliance with Section 188 and 177 of Companies Act, 2013 and have been disclosed in the Financial Statements etc as required by the accounting standards and Companies Act, 2013.

14. Since the Company does not have any operations and Section 138 of the Companies Act, 2013 is also not applicable, therefore, clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

15. The company has not entered into any non-cash transactions with directors or persons connected with him.

16. The company is not required to be register under section 45-IA of the Reserve Bank of India Act, 1934. Hence clause xiv of the Companies (Auditor's Report) Order 2020 is not applicable.

17. The company has not incurred cash losses in the financial year and in the immediately preceding financial year.

18. There has been no instance of any resignation of the statutory auditors occurred during the year.

Integrity exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of when they fall due within a period of 1 year from the balance sheet date.

As per Note No. 27(a) in the financial statement. The company is wholly owned subsidiary of Reliance Communications

Communications Ltd. is under resolution processed under The Insolvency and operation of the holding company is under the control and NCLT orders dated May 18. These factor indicate that a material u

continue as going concern.

Companies (Auditor's Report) Order 2020 is not applicable to the cor

Expenditure as per section 135 of the said act.

Annexure -II to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Campion Properties Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Textual information (27)

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinathrao)

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financials Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Use of Estimates :

the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY *H. Srinath*
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

TRUE COPY *K. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 meets amortized cost or FVTPL criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:

I) The rights to receive cash flows from the asset have expired
 II) The company has transferred its right to receive cash flows from the asset to another entity
 as to pay the received cash flows in full without material delay to a third party

a.1.3

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

OF THE ORIGINAL DOCUMENT**

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

Investment Properties

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Name of Assets

... in years

Furniture & Fittings	10 Years
Office Equipment	05 Years
Plant & Machinery	15 Years

(ii) Amortisation:
Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years
Building	60 Years
Leasehold Improvements	99 Years (lease period)

e.

Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO
OF

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinathkumar*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY *H. Srinath*
of
dis
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

TRUE COPY H. Srinathrao
Pr
the
ba
the
the provisions of the Income Tax Act, 1961. Current tax is determined

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

TRUE COPY H. Srinathrao

o.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Textual information (28)

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinathrao)

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

va

lev

on

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY *H. Srinath*
Fi
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

 meets amortized cost or FVTPL criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:

I) The rights to receive cash flows

fr

II)

rig

as

to pay the received cash flows in full without material delay to a third party

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY *H. Srinathkumar*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the acquisition of the financial liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

Investment Properties

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Name of Assets

... in years

Furniture & Fittings	10 Years
Office Equipment	05 Years
Plant & Machinery	15 Years

(ii) Amortisation:
Intangible Assets are amortized over the remaining on straight line method as per Ind AS – 38 as prescribed in Schedule – II of the Companies Act, 2013. Cost of software recognized as intangible asset, is amortized on straight line method over a period of legal right to use or 3 years, whichever is less.

(iii) Depreciation on Investment Property

Name of Assets	Life in years
Building	60 Years
Leasehold Improvements	99 Years (lease period)

e.

Impairment of Non- Financial Assets :

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO
of

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY H. Srinathkumar

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY *H. Srinath*
**THIS ANNEXURE IS THE TRUE COPY
 OF THE ORIGINAL DOCUMENT**

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Description of accounting policy for borrowing costs [Text Block]

g. Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Other borrowing costs are recognized as an expense in the year in which they are incurred.

Textual information (34)

Description of accounting policy for employee benefits [Text Block]

i. Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

Textual information (35)

Description of accounting policy for financial instruments [Text Block]

a Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1 Financial assets

a.1.1 Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2 Subsequent measurement

Debt instruments:

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the asset and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income or loss. The losses arising from impairment are recognised in the profit or loss. Trade and other receivables.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

any decides to classify an equity instrument as at FVOCI, then dividends, are recognized in the OCI. There is no recycling of the value of investment. However, the Company may transfer the cumulative

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

a.1.3 Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired, or
- II) The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4 Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

abilities

gnition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

including bank overdrafts and derivative financial instruments.

a.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Textual information (36)**Description of accounting policy for foreign currency translation [Text Block]****I. Foreign Currency Transactions**

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are retranslated using the exchange rate prevailing at the reporting date.

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

Textual information (38)

Description of accounting policy for impairment of non-financial assets [Text Block]**f. Impairment of Non- Financial Assets :**

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

Textual information (39)

Description of accounting policy for income tax [Text Block]

n. Accounting for Taxes on Income :

Provision for current tax represents the amount that would be payable based on computation of tax as per the provisions of the Income Tax Act, 1961. Current tax is determined based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

Textual information (40)

Description of accounting policy for intangible assets other than goodwill [Text Block]**d. Intangible Assets other than Goodwill****Initial recognition and measurement**

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial services, whichever is later.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Textual information (41)

Description of accounting policy for investment property [Text Block]**c. Investment Properties****Initial recognition and measurement:**

Investment Properties are, properties held for rental income and/ or capital appreciation, initially measured at cost including transaction cost and stated at cost net of Modvat/ Cenvat, Value Added Tax and include amount added on revaluation less accumulated depreciation and amortisation based on Straight Line Method, impairment loss, if any. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on valuation performed by qualified and experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Textual information (42)

Description of accounting policy for leases [Text Block]

j. Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

Textual information (43)

Description of accounting policy for property, plant and equipment [Text Block]**b. Property, Plant & Equipment :****Initial recognition and measurement**

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the company. All costs including borrowing financing cost of qualifying assets till commencement of commercial operations, net charges of foreign exchange contracts and adjustments arising up to March 31, 2007 from exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

Textual information (44)

Description of accounting policy for provisions [Text Block]

h. Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Textual information (45)

Description of accounting policy for recognition of revenue [Text Block]

k. Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

Description of other accounting policies relevant to understanding of financial statements [Text Block]

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinathrao)

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY *H. Srinath*

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

cl
th
a
meets amortized cost or FVTOCI criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:

- I) The rights to receive cash flows from the asset have expired
- II) The company has transferred its right to receive cash flows from the asset to another entity, and the company has assumed the obligation to pay the received cash flows in full without material delay to a third party

a.1.3

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY *H. Srinathkumar*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
 borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is capitalised if it is probable that the future economic benefits will flow to the entity and its cost can be reliably measured. All expenditure relating to the financing cost of qualifying assets till

commencement of commercial
operations, net charges of foreign
exchange contracts and adjustments
arising up to March 31, 2007 from

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

exchange rate variations relating to borrowings attributable to fixed asset are capitalised.

Cost of an item of PPE comprises its purchase price, including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Derecognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of Profit & Loss in the year the asset is derecognised.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

Investment Properties

experienced Independent Valuer.

Transition to Ind AS:

The company has availed the deemed cost exemption in relation to the Investment Property on the date of transition.

Derecognition:

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

C.

Intangible Assets other than Goodwill

Initial recognition and measurement

Intangible assets, namely computer software are amortised on Straight Line Method, over the balance period of Licenses starting from the date of acquisition or commencement of commercial se

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

The Company has elected to utilize

the option under Ind AS 101 by not applying the provisions of Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of intangible assets as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Depreciation & Amortisation:

(i) Depreciation on Property, Plant and Equipment's
Depreciation on Property, Plant and Equipment's is provided on the Straight Line Method rates over the useful lives as prescribed in the Schedule II to the Companies Act, 2013.
Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

d.

e.

Impairment of Non- Financial Assets
:

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO
of

TRUE COPY H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

TRUE COPY H. Srinath
Pr the ba the provisions of the Income Tax Act, 1961. Current tax is determined

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

**TRUE COPY** H. Srinath**THIS ANNEXURE IS THE TRUE COPY

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinath

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Textual information (51)

Disclosure of significant accounting policies [Text Block]

1.1

Background of the Company:

a.

Corporate Information

Campion Properties Limited ("the Company" or "CAPL"), having CIN number U55101MH2001PLC218815, was incorporated on August 23, 2001 having its registered office at H Block, 1st Floor Dhirubhai Ambani Knowledge City, Navi Mumbai, Thane, Maharashtra 400710.

The company has been formed to carry on business of leasing of property at Maharaja Ranjit Singh Marg for commercial/ business office.

1.1

Basis of preparation of Financial Statements :

a

Statement of Compliance

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles (GAAP) in India and comply with Indian Accounting Standards specified under Section 133 the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and other provisions of the Act, to the extent notified applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India

(IC **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b.

Basis of Measurement

These financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) with the going-concern principle and on a historical cost basis except for Certain Financial Assets and Liabilities that are measured at Fair Value (Refer Accounting Policy Regarding Financial Instruments). The methods used to measure fair values are discussed below. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss, the Cash Flow statement and the Statement of Changes in Equities are based on the principle of materiality.

The company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the company uses observable

m: **TRUE COPY** H. Srinath

va

lev

on

te

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Level 1: quoted prices (unadjusted)

in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

note 21 for information on detailed disclosures pertaining to measurement of fair values)

c. Functional and presentation currency

These financial statements are presented in Indian Rupees which is presentation currency of the company. All amounts have been rounded off to the nearest thousand, unless otherwise stated.

d. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on
TRUE COPY H. Srinath
Ar
·
int
the normal operating cycle, or
· It is held primarily for the purpose

of trading; or

- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

reporting period.
All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2

Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

a

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a.1.1

TRUE COPY H. Srinathrao
Fi
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

a.1.2

Subsequent measurement

Debt instruments:
Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in the profit and loss account as interest income or expense.

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

Debt instrument measured at fair value through other comprehensive income (FVTOCI):

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

Any debt instrument, which does not meet the criteria for categorization as at

cl
th
a
meets amortized cost or FVTOCI criteria, as at FVTPL. However, such

election is allowed only if doing so
reduces or eliminates a

TRUE COPY *H. Srinathrao*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments :

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset is primarily derecognised when:
I) The rights to receive cash flows from the asset have expired
II) The company has transferred its right to receive cash flows from the asset to another entity
as the company has no obligation to pay the received cash flows in full without material delay to a third party

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

a.1.3

under a 'pass-through' arrangement;
and either(a) the company has
transferred substantially all the risks
and rewards of the asset, or (b) the
company has neither transferred nor

TRUE COPY *H. Srinathkumar*
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

a.1.4

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

As a practical expedient, the company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

a.2

Financial liabilities

a.2.1

Initial recognition and measurement

All financial liabilities are recognised initially at fair value less transaction costs that are directly attributable to the acquisition of the financial liability.

TRUE COPY *H. Srinath*
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT
borrowings including bank overdrafts and derivative financial instruments.

a.2.2

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

a.

Property, Plant & Equipment :

Initial recognition and measurement

Property, Plant and Equipment are stated at cost/ fair value net of Modvat/ Cenvat and include amount added on revaluation less accumulated depreciation, amortisation and impairment loss, if any. Subsequent Expenditure is

THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased / reversed where there is change in the estimate of recoverable value. The recoverable value is higher of net selling price and value in use.

f.

Borrowing Cost :

Borrowing costs that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition,

CO TRUE COPY H. Srinathrao
of

Ca THIS ANNEXURE IS THE TRUE COPY
ce OF THE ORIGINAL DOCUMENT
activities necessary to prepare the

qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

TRUE COPY *H. Srinathrao*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Other borrowing costs are recognized as an expense in the year in which they are incurred.

g.

Provisions :

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

h.

Employee benefits

Long Term Benefits

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into separate entities and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefits expense in profit or loss in the period during which services are rendered by employees.

Contributions to defined contribution schemes such as Provident Fund, etc. are charged to the Statement of Profit and Loss, as and when incurred.

II. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan like gratuity.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of

TRUE COPY H. Srinath
pri
go
re
dates approximating the terms of the Company's obligations and that are

denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Company if it is realizable during the life of the plan, or on settlement of the plan liabilities. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

immediately, the expense is recognized immediately in profit or loss.

III. Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

j.

Lease

In respect of Operating Leases, lease rentals are expensed on straight line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, except for lease rentals pertaining to the period up to the date of commencement of commercial operations, which are capitalised.

Where the lessor effectively retains substantially all risk and benefits of ownership of the leased assets they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as Fixed Assets with corresponding amount shown as liabilities for leased assets. The principal component in lease rental in respect of the above is adjusted against liabilities for leased assets and the interest component is recognised as an expense in the year in which the same is incurred except in case of assets used for capital projects where it is capitalised.

k.

Revenue Recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

l.

Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Foreign currency monetary items (assets and liabilities) are

rel
pr **TRUE COPY** H. Srinath

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

(iii) Non-monetary items, which are measured in terms of historical cost denominated in foreign currency, are reported using the exchange rate at the date of the transaction.

(iv) Gains and losses, if any, at the year-end in respect of monetary assets and monetary liabilities are recognised in the Statement of Profit and Loss except in case of gains or losses arising on long term foreign currency monetary items relating to the acquisition of depreciable assets which are added to or deducted from the cost of such assets.

m.

Earnings per share :

In determining Earning per Share, the company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. The number of shares used in computing Basic Earnings per Share is the weighted average number of shares, excluding owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Accounting for Taxes on Income :

TRUE COPY H. Srinath
Pr the ba the provisions of the Income Tax Act, 1961. Current tax is determined

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

based on the amount of tax payable in respect of taxable income for the year after taking into consideration benefits admissible under the Income Tax Act, 1961. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or

TRUE COPY *H. Srinath*

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

equity, in which case it is recognized in OCI or equity.

Deferred tax represents the effect of timing difference between the carrying amount of assets and liabilities in the consolidated financial statement and the corresponding tax base used in computation of taxable income. Deferred Tax Liabilities are generally accounted for all taxable temporary differences. The deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis.

Deferred Tax assets / Liabilities are not recognised for initial recognition of Goodwill or of an asset or liability in a transition that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit/(loss), MAT credit is recognised as an asset only if there is convincing evidence that the Company will pay normal income tax during the specified period.

o.

Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

p.

Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

q.

Contingent liabilities :

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

r.

Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Non-current assets held for sale and discontinued operation

Non-current assets held for sale and discontinued operations Non current assets (or disposal group) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction. Non-current assets (or disposal group) classified as held for sale are measured at the lower of their carrying amount and / or fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets and sale is expected to be concluded within twelve months from the date of such classification. Assets and liabilities classified as held for sale are presented separately in the balance sheet. A disposal group qualifies as discontinued operations if it is a component of the company that either has been disposed off or is classified as held for sale, and; represents a separate major line of business or geographical area of operations, or part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to resale. Non-current assets are not depreciated or amortised while they are classified as held for sale. When the group is committed to sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale. If the criteria described are met, regardless of whether the group will retain a controlling interest in its former subsidiary after the sale. Loss is recognised on any initial or subsequent write down of such non current assets (or disposal group) to fair value less costs to sell. A gain is recognised on any subsequent increase in fair value less costs to sell an asset (or disposal group) but not in excess of any cumulative loss previously recognised. Policies to Balance Sheet and Statement of Profit and Loss If the criteria for assets held for sale are no longer met, it ceases to be classified as held for

TRUE COPY H. Srinathrao

THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

sale and are measured at the lower of (i) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation or any amortisation that would have been recognised had that asset not been classified as held for sale, and (ii) its recoverable amount at the date when the disposal group ceases to be classified as held for sale. A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a

TRUE COPY H. Srinathrao

Subsidiary acquired exclusively with a view to resale. The results of discontinued operations or presented separately in the Statement of Profit and Loss

Inventories of Stores and Spares

Inventories of stores and spares are accounted for at cost and all other costs incurred in bringing the inventory to their present location and condition, determined on weighted average basis or net realizable value, whichever is less. Net realizable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale

Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cash flows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

as created an Employee Stock Option Scheme Trust (ESOS) for making share-based payment to its employees. The Company has used ESOS Trust as a vehicle for distributing shares to employees under the ESOS Trust. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company

TRUE COPY H. Srinath
THIS ANNEXURE IS THE TRUE COPY OF THE ORIGINAL DOCUMENT

treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity. Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred (Note 2.37.1) for information on detailed disclosures pertaining to the measurement of fair values

Textual information (52)

Description of other accounting policies relevant to understanding of financial statements [Text Block]**d. Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current if:

- It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to realise the asset within 12 months after the reporting period; or
- The asset is a cash or equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- It is expected to be settled in the normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within 12 months after the reporting period; or
- The Company does not have an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known / materialised. Estimates and underlying assets are reviewed on going basis. Revisions to accounting estimates are recognised prospectively.

1.2 Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 & Ind AS 40 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and investment property as per the previous GAAP as at 1 April 2015, i.e.; the Company's date of transition to Ind AS, were maintained on transition to Ind AS.

r. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the company in restating its previous GAAP financial statements, including the Balance Sheet as at April 1, 2015 and the financial statements as at and for the year ended March 31, 2016.

Ind AS adoption reconciliations

The company has adopted Indian Accounting Standard (Ind AS) from April 2015. The figures for the previous year have also been converted as per Ind AS, but no additional transitional

TRUE COPY H. Srinathrao

**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

adjustments were required as correspond to previous applicable Accounting Standards. Hence, no reconciliation item has been shown.

Disclosure of financial instruments [Text Block]

Note Financial Instruments - Accounting Classification and Fair Value
25 Measurements

The fair value of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short term deposits, trade and other short receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level: 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Other techniques for which all inputs which have a significant effect on the recorded fair value are observables, either directly or indirectly

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Management assessed that trade receivables, cash and cash equivalents, other recoverable, trade payables, other financial liabilities are their carrying amounts largely due to the short term maturities of these instruments.

(v) Estimation of Fair Value

The Company's investment properties is a 14,973 sq mtr plot at Maharaja Ranjeet Singh Marg, Minto Road, New Delhi, 110002. The valuation of the property is based on valuations performed by Duff & Phelps India Private Limited, an accredited independent valuer. Duff & Phelps India Private Limited is a specialist in valuing these types of investment properties. The valuation was carried out by following guidance of Indian Accounting Standards (Ind AS) 16 & 113. The main inputs used are market rate based on the comparable transactions & industry data, circle rate prevailing in the area and replacement cost due to paucity of bigger land plots available for sale in near vicinity to the subject property.

The company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Note
26 Financial Risk Management Objective and Policies

The purpose of financial risk management is to ensure that the Company has adequate and effective utilized financing as regards the nature and scope of the business. The objective is to minimize the impact of such risks on the performance of the Company. The Company's financial risk management policy is set by the Board of Directors.

The Company's principal financial liabilities comprise trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for operations. It has various financial assets such as loans, advances, land advances, trade receivables, cash which arise directly from its operation.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

a. Credit risk:

It is one party to a financial instrument or customer contract will cause a financial loss due to non fulfillment of its obligations under a financial instrument or customer contract for the other party, leading to a finance loss. The Company's credit risks relate to the leasing activities and non payment of lease rent by leasee. The customer credit risk is managed by leasing out the properties to group companies or related companies. Since all the trade receivables are related companies there is no or minimal risk of default by customers as the rental are to be recovered from within group.

TRUE COPY H. Srinathrao
**THIS ANNEXURE IS THE TRUE COPY
OF THE ORIGINAL DOCUMENT**

b. Liquidity risk:

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow is a mix of cash flow from collections from customers, leasing and interest income. Further, the company obtains sub-ordinate debts and other debts from the Holding Company to meet out the operational cost.

c. Market Risk :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to 2 types of market risks namely currency risk and interest rate risk. Financial Instruments affected by market risk include loans and borrowings and deposits. The company monitors the risks arising out of trade payables on a regular basis with the help of the group treasury team. Further the company may enter into derivatives if the exposure arising out of these risks exceeds significantly.

c.1. Currency Risk:

There is no currency risk since all operations are in INR.

c.2. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is not managed by taking interest free loan.

operation of the holding company is under the control and custody of Resolution Professionals (RPs) appointed vide Hon'ble NCLT orders dated May 18. These factor indicate that a material uncertainty exists that significant doubt on the company's ability to continue as going concern.

However the Company does not have any intention to suspend the operational activities. The company holds building on leased hold land with build up area of approximately 15000 square meters with multi-leveled basement parking, spread across two level and valued for 666 crores approximately as on 1st April 2015 by an independent valuer. Management estimates, current market of the property in the same range as on 31st Dec 2023, which exceeds the accumulated losses by approx Rs.600 crores. The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

b) Disclosure of Compliance with IND AS

The Company has adopted Indian Accounting Standards ("Ind-AS") and these financial statements have been prepared in accordance with the principles of recognition and measurement of Ind AS, prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder. Accordingly, the annual financial statements of the previous periods are restated as per Ind AS.

c) In the opinion of the management, the current assets and loans & advances are at least equal to the value stated in the Balance Sheet, if realized in the ordinary course of business.

with Trade receivables / trade payables are subject to confirmation/ reconciliation.

The company does not have any extrenal borrowing and current liabilities consists of mainly borrowings from the holding and fellow subsidiary companies. The company is in process of exploring the opportunity for renting out the property. In view of the management's expectation of the successful renting of the property in near future, the financial statement has been prepared on the going concern basis.

Note 30 Approval of financial statements

The financial statements were approved by the Board of Directors on 28.05.2024

Textual information (71)

Disclosure of revenue [Text Block]

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.

Textual information (72)

Disclosure of revenue [Text Block]

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.

Interest income on investment is recognised on time proportion basis. Dividend is considered when right to receive is established.
